Pharma Access Fact File

PHARMA ACCESS EXHIBITING EXCELLENCE ATACHEMA, GERMANY

Achema is the biggest triennial Pharma Event held in Germany in June 2018. With an aim to connect, inspire, and showcase our capabilities – Pharma Access went all guns blazing for this mega event which not only helped our stakeholders understand our unique proposition but also bring together the ideas and knowledge at a common platform.

The event has been nothing short of great success for Pharma Access where we displayed our recent Turnkey project in a unique 3D printed scaled down model to understand the range of services we offer in a holistic manner. Our partners were thrilled to witness their huge machines in a scaled down miniature model with detailing that can clearly make our stakeholders understand our philosophy of paying attention to detail in designing and executing Pharmaceutical projects.

See us next in the upcoming

1st ARAB PHARMA manufacturers EXPO 2018

July 24 & 25, 2018 | Amman JORDAN

Pharma Access also signed outstanding MoUs with world class manufacturers to provide advanced technology to our clients and help them identify best machine and equipment that suit their requirement. This brings up our vendor reach to many new counties and to wide variety of vendors serving Pharmaceutical industry across the globe.

Industry exhibitions have always been great platform to showcase Pharma Access' vision of providing quality machinery coupled with astounding execution capabilities. With valuable inputs and knowledge sharing sessions on technology and innovation with our partners, Pharma Access will take learning and leads from Achema 2018 to work towards providing quality services in field of Turnkey Pharmaceutical Solutions.

BRAIN-O-METER!

Did you know?

Coca-Cola was invented by a pharmacist named John Pemberton. He carried the jug of the new product down the street to Jacob's Pharmacy where it was sampled and pronounced "excellent" and placed on sale for 5 cents a glass as a soda fountain drink.
